OTBET: We have the fullness of Truth, but this Truth must be spoken and given in love, lest it be corrupted in the very manner in which it is presented. 7. Методические указания для обучающихся по освоению дисциплины

Важным фактором успешного обучения студентов в Академии, как и в любом высшем учебном заведении, является способность самостоятельно приобретать знания. Самостоятельная работа студента – это планируемая познавательная деятельность, организационно и методически направляемая преподавателем без видимой помощи для достижения конкретного результата. Учитывая, что в Академии количество аудиторных часов составляет до 60% от общего количества учебной нагрузки, необходима организация самостоятельной работы студентов и выработка системы контроля их знаний. Изучение курса «Иностранный язык в профессиональной коммуникации (Английский язык)» способствует сознательному и самостоятельному овладению новыми знаниями, их закреплению, расширению и углублению, повышению качества их усвоения; выработке самостоятельного творческого мышления и подготовке к самообразовательной и научно-исследовательской работе. Изучение основных теоретических вопросов предлагается в т.ч. через знакомство с исследовательскими работами. Для наиболее глубокого усвоения

основных вопросов используются научные источники в виде:

1. Электронный вариант научных статей, глав монографий и исследований, предназначенных для конспектирования.

2. Копии научных статей и глав монографий, предназначенных для конспектирования. Контроль за уровнем и качеством освоения дисциплины предполагает различные формы промежуточного контроля (в т.ч. контрольная работа, формулировка проблемных вопросов по темам текущих семинаров, тестирование, конспектирование статей и глав монографий, зачет).

Самостоятельная работа студентов очного отделения ведется в следующих обязательных формах:

- чтение научной, учебной литературы;
- конспектирование научных и критических статей.

8. Описание материально-технической базы, необходимой для осуществления образовательного процесса по дисциплине

1	учебная аудитория для проведения лекционных, практических (семинарских) занятий;
2	шкафы книжные (библиотечные), укомплектованные собранием избранных произведений авторов Мировой художественной литературы;
3	стол и стул преподавателя (по 1 шт);
4	столы учебные студенческие (12 шт);
5	стулья студенческие (12 шт);
6	видеопроектор;
7	экран;
9	доска.

Лицензионное программное обеспечение при реализации дисциплины не требуется.
